<https://irocket.pro/market-maker-tools>

Market Maker Tools for DEX - is a program solution allowing market makers to run token movement on the DEX exchanges.

Market Maker Tools

For BSC BEP20 tokens on PancakeSwap

- allows to manage the trading volume,
- allows to accumulate and distribute positions,
- forms support and resistance levels,
- works with numerous wallets at the same time (up to 20 bots),
- preset Bot behavior scenarios (Daily Smooth Buy Bot, Daily Smooth Sell Bot, Volume Bot, Pump Bot and others),
- allows to form a requested price chart.

The Program allows to create a large number of trading bots for performing various market maker tasks: price holding, accumulation, distribution, providing necessary price impulse.

INFINITY ROCKET
token launchpad platform

Infinity Rocket Market Maker Tools

Benefits for Token Owners

- Create a Smart chart for your token in order to attract traders
- Increase the trading volume on the exchange
- Increase confidence in your token
- Attract new investors faster
- Save money managing your project without a market maker

Conveniences for Market makers

- Manage all your bots using an only one tool
- Use automatic scenarios that do not require constant operator control
- Manage more projects
- Lay the extra staff off and automate the work

- One Bot can both buy and sell at a set time frame.
- Using just one Bot you can determine the price changing balance at a set time frame.
- When creating a Bot you have to set Gas price, possible price slippage, buying or selling activation, token number and time frame.

SUBMIT

Insert the **gas** and **slippage prices**

Switch on and off the activity with the button.

Input the **amount of tokens** that you want to **buy** and time (seconds) here.

The bot buys a certain amount of tokens at a set time period.

Set the **amount of tokens** and time(seconds) to **sell**.

Remember that the **exchange charges** you with fee when you sell or buy something. That is why the amount of tokens for selling should be less.

- Create and set up a new Bot.
