#### Why are we unique?

- Infinity Rocket has a pool of investors ready to participate in new projects.
- We have a great influencers' and advicers' support.
- We support you at each stage: from the token creation to listing on the top exchanges.
- We know the exchanges requirements and features.
- We use our own token management tools such as **Market Maker Tools**<sup>®</sup>.

Investors trust Infinity Rocket.

All the projects are tested on investment attractiveness.

- Project launching on our platform gives a good start from the beginning.

# Market Maker Tools – is a unique token management system on DEX

The product created by Infinity Rocket allows to:

- regulate the trading volume,
- accumulate and distribute positions,
- form support and resistance levels,
- work with many wallets at the same time,
- form a price chart needed.

# Infinity Rocket

The Launchpad Platform forms a part of **Infinity Rocket** ecosystem. Also, we actively develop special community and influencers net.

The company has its own **IRT token** that has been successfully traded on 4 exchanges since 2021.

The project road map is completed on **100%** that makes investors trust it.
